

SR-D1A

Product code: SR-D1A

Manufacturer: Figaro Engineering Inc.

The SR-D1A Test Unit is designed to perform the testing and evaluation of both TGS Gas Sensors and Figaro Gas Sensor Modules. By connecting this unit to a 100~240V (AC) power supply, a sensor output signal (VRL) can be obtained which corresponds to a concentration of test gas in ambient air.

Compatible sensors

Series 26xx, 8xx, LPM, NGM, AMS, and more
