

500ES290

Product code: 500ES290

Manufacturer: Pro-Wave Electronic Corp.

Ultrasound electrostatic transducer, open case with plastic protective grid, typical drive frequency 50KHz, size 28.6x28.6mm

Features

- Electrostatic transducer
- Work Environment: Indoor
- Configuration: transceiver
- Typical working frequency: 50 KHz
- Emitted sound pressure (to 50 KHz, 300Vac pk-pk, 200Vdc bias, db re 20μPa a 50 cm): 116dB min
- Receive Sensitivity (50,0KHz 0dB=1V/μbar): -45dBmin
- Size: 28.6x28.6mm

Type

Open
