

500ES430

Product code: 500ES430

Manufacturer: Pro-Wave Electronic Corp.

Ultrasound transducer are suitable for non-contact distance measurement

Features

- Electrostatic transducer
- Configuration: transceiver
- Typical working frequency: 50 KHz
- Emitted sound pressure (to 50 KHz, 300Vac pk-pk, 200Vdc bias, db re 20μPa a 50cm): 116dB
- Receive Sensitivity (50,0KHz 0dB=1 volt/Pa): -43dBmin
- Diameter:42.9mm

Type

Open
