

500MB120

Product code: 500MB120

Manufacturer: Pro-Wave Electronic Corp.

The couple of transducer 500MB120 is suitable for low cost applications where the minimum measurable distance is a fundamental parameter or anyway for simple detection of people and objects passing.

Features

- Working frequency: $40,0 \pm 1\text{KHz}$
- Emitted sound pressure (to 40.0 KHz, 0dB re 0.0002 μbar for 10Vrms to 30cm): 113dB min
- Receive Sensitivity (40,0KHz 0dB=1V/ μbar): -67dB min
