

AS/7,5/F

Product code: AS/7,5/F

Manufacturer: Solartron

The AS / 7,5 / F is an LVDT free core characterized by external electronics.

The S series of displacement Transducers is the culmination of many years' experience gained from Solartron metrology's highly successful mach One range plus careful note of market feedback. The result is a totally new range of transducers that is better able to satisfy today's demanding manufacturing and research applications.

It has a stroke (mm) of ± 7.5 and a sensitivity (mV / V / mm) 121.

Optimal in the areas of transport, energy, hydraulics and oleodynamics and in various industrial applications in the field of automation.
