

KD1299

Product code: KD1299

Manufacturer: Shinkoh electronics

Model KD1299 is silicon photodiode mounted in TO-18 type header with epoxy encapsulation.

Feature:

- Photo diode λ_p :900nm).
TO-18 package.

Application:

- Photo detector for Photo sensor
- Photo detector for Photoelectric sensor

Mounting	TO-18 Stem & Window
Output	Photo Diode
Output Mode	Livello logico alto
Peak sens. wavelenght (nm)	900nm
Series	KD Series
Output type	Pull-up
