Dual NDVI/Red-Edge Lenses 5 Bands

Product code: 5 bands - Dual NDVI/Red-Edge Lens
Manufacturer: Agrowing

Available in single lenses kit or camera with lenses

Agrowing lens kit based on CMOS Sensor provides multispectral images of 8 megapixels per ultra dynamic range band, with 1.7 cm per pixel.

Agrowing sensor provides incredibly detailed NDVI maps, which enable early detection of abnormal areas in the field.

The sensor provides multispectral images of sub 0.5mm per pixel from 3m altitude. These detailed multispectral images allow to implement artificial intelligence techniques for the isolation, classification and identification of irregularities such as blight or the presence of harmful pests and insects.
