

FLATNESS CONTROL PRECISION SYSTEM FOR CONTAINER GLASS

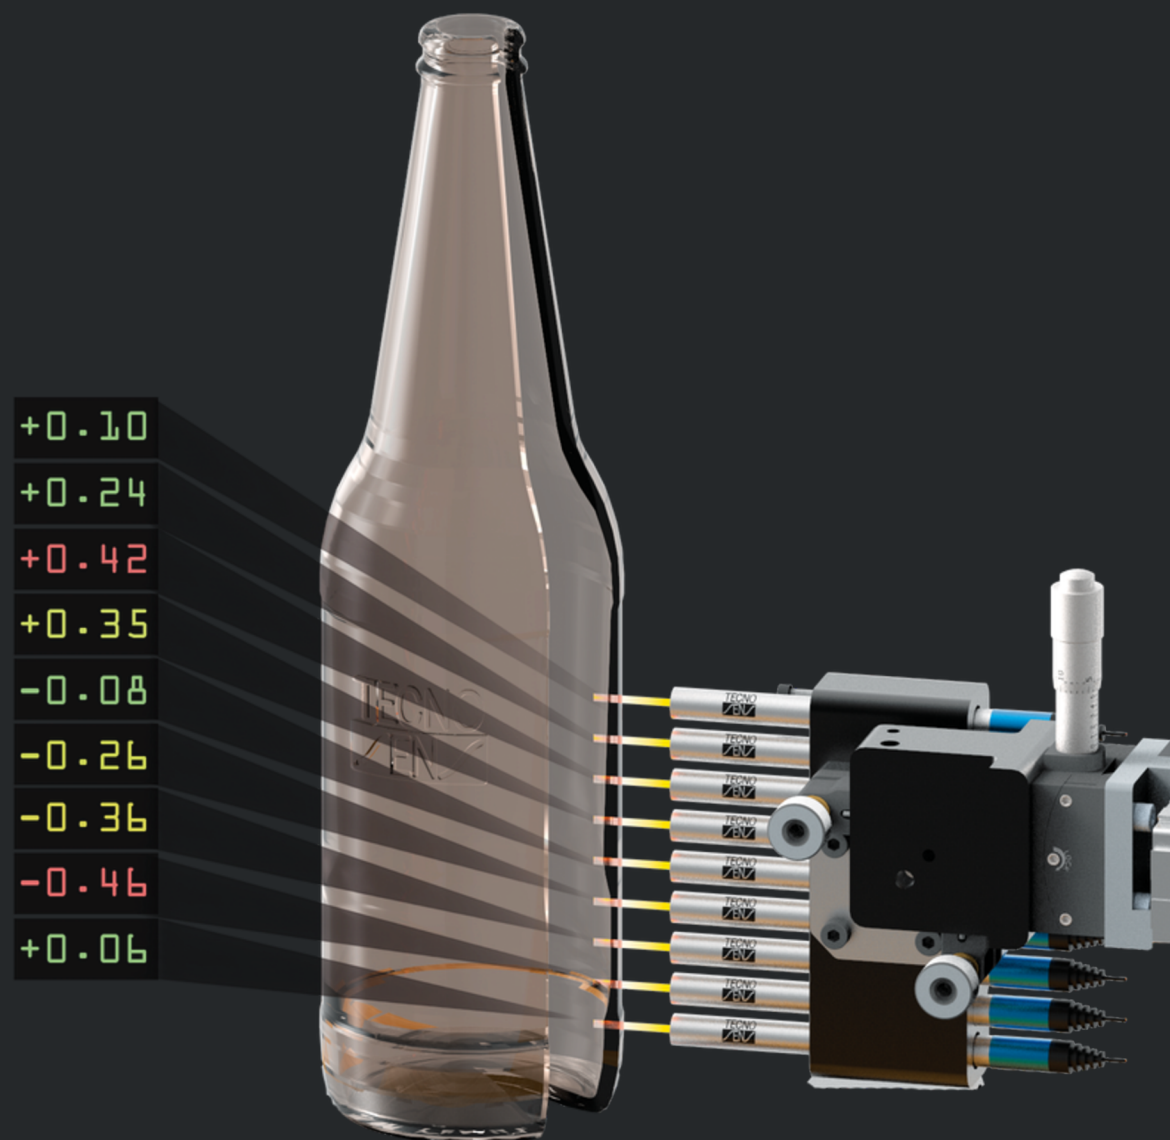

Do you check your bottles' labelability?

swipe

Why Tecnosens Opti Sentinel?

- Ultra-precise: Accuracy below 20 μm for reliable metrological control
- Fast: Up to 180 bottles per minute, in-line or off-line
- Adaptable: From flatness to thickness, dot code, and logo inspection

COMPLIANT

Labelability Under Control:
The Core Function

A perfectly flat label area is critical for
brand image. Even the smallest
imperfection can mean costly rejects.

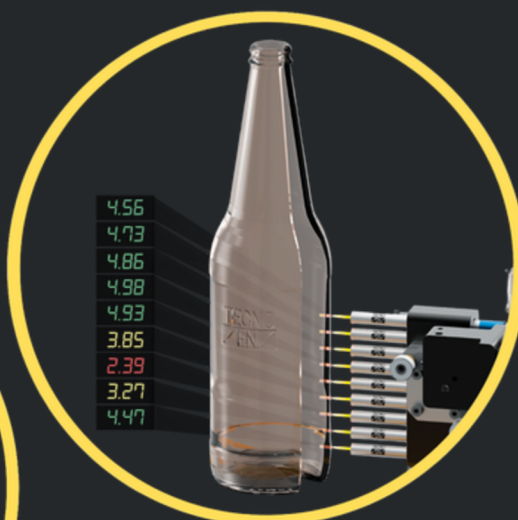

NON-COMPLIANT

LOGO SCAN

FLATNESS

THICKNESS

DOT SCAN

Beyond Flatness: Configurations for Extended Control

- Thickness verification at single or multiple points
- Dot code inspection for readability and traceability
- Logo & text scanning ensuring brand integrity
